BOA to pursue buying 8 acres

By TIM FLEISCHER
EDITOR-IN-CHIEF

Salado aldermen will pursue the purchase of eight acres on the west side of the interstate for the construction of a wastewater treatment plant.

The board voted unanimously Sept. 24 to pursue this option after debating the wastewater services, land donation and economic development agreements latest rendition offered by Sanctuary Development Co., LLC. For all of 2015, Salado aldermen have been in negotiations with Sanctuary Development Co. and Billie

Hanks for the construction of a wastewater treatment plant on six acres to be donated by Hanks along with the transfer of a Texas Commission on Environmental Quality Discharge permit.

Those discussions soured in recent weeks to the point that on Sept. 24 Alderman Michael McDougal said, “They have delayed their way out of an agreement. They have offered a long distant, mediocre promise, instead of a good-faith local upfront agreement.”

Mayor Skip Blancett kept what appeared to be a closed door slightly open

at the end of the Sept. 24 discussion when he said: “If they want to come in to town, they can be our guests, but we are going in another direction.”

While the topic of Sanctuary Development and the set of Agreements is on the board agenda for Oct. 1, it may be the formality of actually severing those discussions.

The Village gave some indication that it may be moving in that direction when aldermen directed the following by two unanimous motions on Sept. 3:

- “The Village Administrator shall contact a professional to pursue a con-

tract for property within the specifications by the Village’s wastewater engineering firm for the purpose of acquiring a wastewater treatment plant site, such recommendations for acquisition of a specific site to be brought forth to the BOA as soon as practically possible. The property should be no less than 8 acres.

- “Instruct Village staff to negotiate and prepare an engineer’s contract for consideration at the next meeting for services to establish the Village’s Certificate of Convenience and Necessity Service

Chamber, Tourism Exec. chosen, begins work here by end of month

Mary Poché will join the Salado Chamber of Commerce and Tourism Bureau as the new Executive Director at the end of October 2015.

She will be returning to her Central Texas roots after two years as Executive Director of the Decatur Economic Development Corporation.

During her time in Decatur she and her team supported local business through a retention and expansion program. Retail support was a specific focus and it included programs and training geared to business growth.

She was also successful

in the recruitment of a desired hotel to the city’s Civic Center complex which is scheduled to break ground in early 2016. This was a jump start to the re-branding of the complex in conjunction with the hotel’s marketing assistance as a Conference Center, thus allowing the securing of multi-day events including regional trade shows and corporate meetings previously not possible.

Poché has many years of experience in private and nonprofit enterprises specific to events including the successful development and execution of dental office design con-

ferences in strategic U.S. cities, citywide Christmas events, symphony and theater galas and wine festivals.

Prior to working in Decatur, Poché was the Assistant Director of a 4B economic development organization in the Austin suburb of Pflugerville.

While at the Pflugerville Community Development Corporation, she led the business recruitment and marketing program and enjoyed engaging with the business community to support them in various ways including collaborating with the Chamber and other city entities for

a “Come Home to Shop” campaign.

She managed many award-winning marketing campaigns that included integrated marketing and public relations strategies resulting in Pflugerville being named by Money Magazine in their Top 100 fastest growing mid-size cities.

Previous to her Pflugerville position, Poche’ served as Director of Marketing for the Temple Economic Development Corporation in Central Texas.

In this role she worked specifically in marketing the Parks at Central Pointe.

BOA adds \$10K to 15-16 buget for control of deer; plan workshop

By TIM FLEISCHER
EDITOR-IN-CHIEF

Salado aldermen, at their Sept. 24 meeting, added \$10,000 to their general operating budget expenses so that the Village can begin a deer population control program.

The money was added at the motion of alderman Michael McDougal which received a second from alderman Fred Brown.

Aldermen have not yet decided on an approach for addressing the white tail deer population in Salado. Earlier this summer, they turned back an effort to do so through the

regulation of feeding deer within the village limits and a Managed Lands Permit system that would have allowed for the early hunting of deer within the village limits by bowhunters. The permit process is complex and requires potential hunters to be registered through the city.

Aldermen have set an open meeting with Texas Parks and Wildlife Department experts to discuss with local citizens different approaches, success rates and costs of a variety of programs. They will discuss the biological impacts on the deer population of feeding deer corn

to the suburbanized deer. The meeting will be part of the agenda for the Oct. 22 meeting at the municipal building.

Presentations are scheduled from Derrick Wolter, Wildlife Biologist at Texas Parks and Wildlife, Bell County Game Wardens, representatives from City of Lakeway, Bell County Master Gardeners, Dr. Walter Cook, chief wildlife veterinarian from Texas A&M University and John Cornelius, wildlife management specialist.

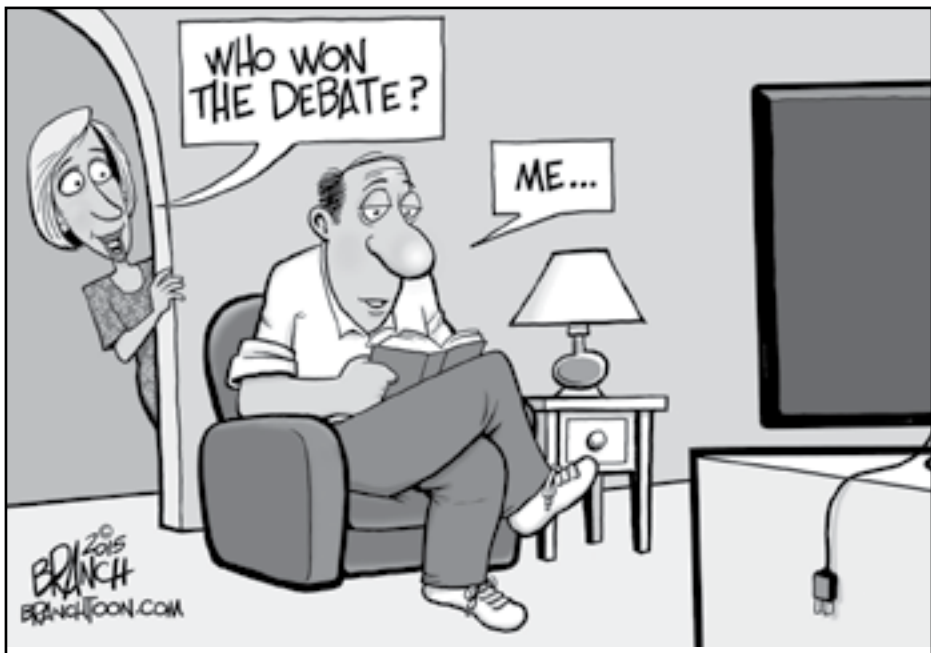

Many other communities have wrestled with the increasing populations of

white tail deer. Some have trap and process (kill) programs, others have trap and release programs and some have bow hunting or sharp shooter programs for culling the herd population.

As suburban growth pushes back the population of natural predators for deer and as lush suburban landscapes provide attractive — however unhealthy — forage for deer, the deer population grows until it cannot be maintained in any healthy capacity. This results in stunted growth for the deer, more natural defects for fawns, diseased deer and other issues.

An Open Exchange of Ideas

The U.S. Shouldn't Feel Migrant Guilt

The U.S. has joined the global bidding on Syrian refugees. At first it said it would take 10,000 Syrians. Now it says it will increase the annual U.S. overall refugee intake from 70,000 to 100,000 during the next three years to help deal with the migrant wave deluging Europe.

The Obama administration's attitude used to be that Syria is a faraway country of which we know nothing, and it stood by while Syria descended into mayhem and madness. It turns out that Syria is not so far away that some of its nearly biblical exodus -- half of the country's population is displaced -- won't touch our shores.

If the U.S. is letting a guilty conscience prod it into taking some of that flow, it shouldn't. The U.S. is already incredibly generous to migrants, and settling Syrians here is not the most cost-effective or sensible way for us to help.

The U.S. is already the migrant capital of the world. It is host to "about 20 percent of the world's international migrants, even as it represents less than 5 percent of the global population," according to the Migration Policy Institute. About a quarter of the U.S. population is for-

Rich Lowry

eign-born or the children of immigrants.

Our generosity has extended to Muslim migrants. Before the European crisis, the Pew Research Center projected that by 2030, the U.S. would have a larger number of Muslims than any European country besides Russia and France.

The U.S. already has been dealing with its own, smaller-scale migrant crisis. More than 100,000 migrants from Central America came here last year, and the vast majority aren't going back. There are tens of thousands more this year. Notably, no European country is offering to welcome any as a sign of its good international citizenship.

Taking people and flying them halfway around the world to come live in an alien society is much easier said than done. It used to be that refugees to the U.S. were sponsored by a family or a church. Now they are supported by a panoply of government programs on top of traditional welfare benefits, from food, housing, cloth-

ing and job training, to day care, transportation assistance and English classes, to guidance on what assistance they are entitled to as refugees. If this sounds involved and expensive, it is.

Then there's the question of security. Given that there are no records about the refugees and we won't be cooperating with the Syrian government, any definitive screening will be next to impossible. Even if the vetting is perfect, the lesson of Somali refugees in the U.S. is that a poorly assimilated population of Muslim immigrants can provide a recruiting pool for radicals.

The displaced Syrian refugees should find refuge, just not necessarily here or in the West. There are any number of nearby Muslim countries that are obvious destinations. We should (at the very least) take the resources that we would devote to resettling Syrian refugees and spend them on helping the front-line states in the Middle East.

The first step to getting a handle on U.S. immigration policy is not consent to always saying "more."

Aldermen to pursue new alternative on sewer for businesses, west side

Please know that the Rotary designed and paid for the beautiful covering for children in Pace Park. The Rotary is a dedicated group who set high standards in everything they do. Please forgive the error last week.

Last Friday, the sewer process put into action the following:

Immediately apply for a permit for the Sewer Plant.

1. As directed by the Board of Aldermen/lady, carefully consider land options.
2. Ask the City Engineer to review the sewer line plans and any additional cost.
3. Research all requirements for the bidding process to lay the sewer line and build the plant simultaneously.
4. Present all the above information in the Board

Fighting Inequality at the Local Level Transit workers in Grand Rapids are organizing against pension theft and fare hikes.

Inequality isn't a condition. It's a creation. Inequality is produced by thousands of decisions deliberately made by bosses, bankers, and big shots to siphon money and power from the many to the few.

We see Wall Street and Washington doing this, but the deepening chasm of inequality in America is also the product of decisions that local elites are making every day. Take Grand Rapids, Michigan, a city largely run by a few billionaire families sharing an entrenched laissez-faire ideology. They oppose heavy-handed government policies — unless you're poor or working class.

Thus the city's leaders, who find it unconscionable to hike taxes on the rich, recently socked low-income bus riders with a 16 percent jump in fares. For the 27 percent of people in Grand Rapids

Michael Fleshman/Flickr

who live below the poverty line, that's a serious chunk of change siphoned right out of their pockets.

Then, the board of directors of the city's transit agency slipped a siphon tube into the wallets of the agency's own drivers and mechanics, arbitrarily terminating their pensions. Adding a crude insult to injury, the board simultaneously gave the transit boss a raise — literally stealing from workers to lift the CEO's salary above \$200,000 a year.

When the workers, members of the Amalgamated Transit Union, began leafleting bus riders to oppose the fare hike and pension theft, the arrogant boss and autocratic board

threatened to arrest and fire them.

Luckily, it's still legal to exercise your First Amendment rights even in Grand Rapids, so the union won an injunction against this repression. Better yet, the attempted siphoning of money and power has rallied community groups, students, bus riders, and others into a grassroots movement to stop widening the inequality gap and start bridging it.

Faking People Out at the Fed

By Ed FEULNER

Frustrated voters sometimes denounce their representatives as “good for nothing,” but are they being fair? Consider the budget gimmicks some politicians come up with. When it comes to fiscal gymnastics, who can deny their creativity?

Case in point: a plan to fund the mismanaged Highway Trust Fund by tapping the dividends that the Federal Reserve pays member banks. Seriously, stick with me here, because this is a doozy.

Here we have federal highway spending, operating at a deficit. Duh, it’s run by politicians. Of course they’re spending more money than the Fund takes in. And they’ve been doing it since 2008.

Even in Washington, though, you can do that for only so long before you have to find real money. So this past summer, both houses of Congress came up with a plan. The Senate bill covered a much longer time frame (six years versus five months), and so it had a bigger price tag (\$47

billion versus \$8 billion). But both were chockful of tax hikes and budget tricks. So far, so Washington.

The kicker, though, was the way they planned to come up with at least some of the money. As a condition of joining the Federal Reserve System, member banks are required to buy into the stock of their district Fed bank. In return, the Fed pays the banks a 6 percent dividend every year.

The Senate plan? Cut that 6 percent to 1.5 percent. Take the difference and put into the highway fund. Problem solved! Okay, not solved, but, uh, sorta taken care of. For now.

You may be wondering what banking has to do with transportation spending. Good question, but don’t waste time trying to find a link; there isn’t one. When lawmakers need some bucks, they pull from wherever they can.

And in this case, they’ve got to feel like geniuses. I mean, bankers? Boo hiss, right? It’s hard to drum up sympathy for anything

close to Wall Street. But it’s not that simple.

For one thing, it’s not as if the banks can do anything with this stock. It’s a condition of membership. They can’t buy or sell it, the way most stockholders can.

This so-called ownership is really just nominal – the Federal Reserve Board of Governors runs the system, and it’s a full-fledged government agency. “Lowering the dividend isn’t going to punish an evil cabal of bankers,” writes financial regulation expert Norbert Michel in Forbes. “Because that particular cabal doesn’t really exist.”

Michel goes on to explain that all the profits from the Fed’s operations, by law, must be turned over to the U.S. Treasury. And it really adds up: For the last 10 years, the Fed has annually remitted between about \$19 billion (in 2004) and \$88 billion (in 2012).

“So the Fed is a significant source of revenue for the government,” Michel writes, “and now some members of Congress want

more.” No matter how you slice this, it amounts to taking money out of the Fed to pay for more pet projects rather than cutting spending. “Taxpayers would ultimately foot the bill,” Michel notes. That’s right. Taxpayers. Hard-working Americans like you and me.

And lawmakers like the idea of tapping the Federal Reserve Fund so much that even if they don’t use it to shore up the Highway Trust Fund, there are reports that they may do it to finance other deficit spending.

So there you have it. That good-for-nothing Congress, taking the old tax-and-spend policy we’ve seen for decades and giving it a twist.

We always knew they were good at wasting our tax dollars. Now they’re proposing a gimmick that may even convince us it’s not our money at stake.

It’s time to speak up -- and tell them how wrong they are.

Wastewater

Area for a wastewater system.”

Following these two motions, Alderman Frank Coachman on Sept. 3 then presented a multiple-part motion concerning the agreements and discussion with Sanctuary developers.

Since then, aldermen have met three times to discuss the agreements, on Sept. 10, Sept. 17 and Sept. 24.

Alderman Frank Coachman reviewed with his fellow board members on Sept. 24 some of the discussions he had with Robert Sulaski, CEO of Sanctuary Development Co. and the last status of the agreements as a result of those discussions.

According to Coachman, Sanctuary has agreed to coming in through voluntary annexation when all of the agreements have been signed, including the Economic Development Agreement, of which the Public Improvement District agreement is a part.

“They still want the use of the effluent for 45 years,” Coachman said, adding that they did accept the 200,000 gallons per day limitation of the treated effluent.

Alderman Amber Preston-Dankert said that while the term “eminent domain” was struck from the wastewater services agreement “It still says we are bound to them to secure those properties or to give them the most

cost-effective alternative alignment.”

Coachman responded, “All they are asking is our assistance in trying to gain that last little bit of land...” adding that the alternative would be to extend down College Hill and run under the easement that is going to be the future walking trail to connect to Royal Street.

“They have negotiated every other piece of property but this one,” Preston-Dankert said. “They should be assuring us that they have access to the service. It is not our responsibility.”

Alderman Fred Brown questioned the 45 year period for both the use of effluent water and the tax abatements and economic development agreements for 45 years. “They are at 80 percent hotel motel rebates and 80 percent of all Village ad valorem taxes for 45 years....,” he said. “For them to even put this in here is ridiculous. If they are this difficult to deal with right now it is not going to change in the future.”

“When they are ready

to submit a complete package,” Alderman David Williams said, “then we can take this up again and talk about it.”

Coachman said that “From what Robert (Sulaski) says, he is bringing this to us next week.”

Coachman also said that Sulaski told him that Sanctuary is “about to file for a MUD (Municipal Utility District).”

“I feel like I have done our due diligence on this,” Coachman said.

Alderman Brown offered a proposal from the Arthur Wade Capps family for the purchase of approximately eight acres on the west side of I-35 for \$80,000. “The price is exceptional. It does not back up to any neighborhoods or churches or anything. It is great for the high school and the west side and can go right down Main Street.”

The board voted unanimously to pursue the purchase of the Capps property.

“After the acquisition of the property,” City Manager Kim Foutz said, “we can move forward

Little Free Library dedicated at St. Joseph's Church

St. Joseph's Episcopal Church dedicated its new Little Free Library on Sept. 27.

A Little Free Library is a small cupboard of books placed in a safe, prominent

outdoor location. The cupboard is available to anyone who wants to stop by to pick up a book. People are encouraged to take a book, to leave a book, to bring a book or return

the book before borrowing more from the small space.

While this may not mean much to adults who have their own libraries, "it is very important for literacy development of young people, people who are becoming literate in a second language, as well as for lifelong literacy development," according to Pam Nelson, who has established the Little Free Library here.

Approximately 25,000,000 copies of the Bible are sold every year, in the USA alone. But is it really good news for the Good Book? Other statistics are not so positive. For example, only 16% of people who go to church regularly read the Bible daily; about 25% never read it at all. So how about you? Do you read the Bible? Are you getting anything out of it? Join us at Grace this Sunday morning, and let's talk about it.

Eagles hit road to Llano on Oct. 2 looking for first football win of 2015

Salado Eagles travel to Llano to face the 1-4 Yellowjackets in the final non-district football game at 7:30 p.m. Oct. 2.

Llano's only win came in week two against the now 0-4 Bangs Dragons, a 3A-Div I team. The Yellowjackets won 41-12.

Llano has lost to Wall 28-13, Brady 44-6, Fredericksburg, 27-0 and Lakeview 28-14.

Last year, the Eagles lost to Llano 34-13 at home.

Salado is coming into the game with a winless record, after losing to the Gatesville Hornets at Eagle Stadium 40-23 on Sept. 25.

The Eagles trailed by as much as 34-3 at the half, when the Hornets put in substitute players for the remainder of the game.

The Hornets scored on their first possession on an 11 play drive, capped by a one yard run by Jacob Carley. David Saldivar's kick made it 7-0 at 7:58 in the first.

After Salado went three-and-out, the Hornets scored on a 62 yard pass from Jeff Speer to Cooper Edmiston. The PAT failed.

Gatesville picked up a fumble and returned it 45 yards to the Salado 4 yard line to set up a short pass from Speer to Matthew Bell for a 20-0 lead.

with a 34 yard field goal by Salado kicker Alex Carmona to trail 20-3.

Speer scored on a 42 yard quarterback keeper with 8:57 left in the half and a 27-3 lead after Sandidal's kick.

Speer threw his third touchdown of the game to Dakota Vernon and Sandidal brought the score to 34-3 at the half.

Gatesville had a TD called back in the third and Tyler Stairs intercepted a Hornets' pass, but Gatesville intercepted a Salado pass on the next series to give the Hornets the ball at the 38 yard line.

Alex Thompson scored the final touchdown for the Hornets on a 23 yard run with 8:15 left in the third quarter.

Salado would score three touchdowns in the fourth quarter, two of them on passes by sophomore quarterback Ryan Kyburz and one on the ground.

Kyburz hit Trey Sheppard for a 7 yard TD pass early in the fourth and Carmona kicked the extra point to make the score 40-10.

A screen pass from Kyburz to Preston Payne set up a 1 yard touchdown dive by Sheppard midway

through the final period. The kicked was partially blocked and Salado trailed 40-16.

With less than a minute left in the game, Kyburz hit Payne for a 31 yard touchdown pass. Carmona booted the extra point to bring the score to 23-40.

The Eagles had their most productive game with 264 yards total offense. Kyburz was 17 of 34 passing with an interception and two passing touchdowns. Payne was his favorite receiver with 97 yards on five catches and a touchdown.

Driver Ed requirement for Texas teens

The Texas Department of Public Safety is reminding student drivers about the Impact Texas Teen Driver program (ITTD), which went into effect Sept. 1 and is a new requirement for driver license applicants who complete a teen driver education course. The two-hour ITTD program contains several videos that provide awareness about the dangers of distracted driving.

As of September 1,

2015, anyone who takes a teen driver education course – including Parent Taught Driver Education – must also complete the ITTD program, which consists of watching the video and printing out the ITTD completion certificate. ITTD should be completed after the classroom hours and all behind-the-wheel instruction, and it is the last step before taking the driving skills examination. (Individuals

aged 18-24, who choose to complete a teen driver education course, must also complete the ITTD program.)

In order to take the driver skills examination, student drivers must present the ITTD completion certificate along with their driver's education course certificate of completion. The skills examination must be completed within 90 days of date on the

ITTD certificate of completion. DPS has been providing information about ITTD when student drivers apply for their learner's permit.

For more information about ITTD or to complete the course, visit <https://impacttexas teen drivers.dps.texas.gov/>. You can also visit <http://www.dps.texas.gov/DriverLicense/ittd-Prgm.htm>.

That old black magician

Contract Bridge

By Steve Becker

The declarer who strives for perfection seeks a way to improve on his chances even when he already has a very good chance of success by adopting the most obvious line of play. Sometimes he may have to do something unusual to accomplish his purpose, but if that's what the situation calls for, he does it. Consider this deal where South is in five clubs. It seems normal to win the heart lead with the ace, discarding a diamond, then cash the queen of trumps and stake the outcome on two spade finesses. As it happens, both finesses lose, and South goes down one because he must lose a diamond trick also.

Unlucky, you could say,

South dealer.

Both sides vulnerable.

but if South is a more imaginative declarer, he makes the contract. Rather than rely on the 75 percent probability that East was dealt either the king or queen of spades, or both, which is essentially a matter of luck, South follows a different course of action that eliminates the luck fac-

tor.

Instead of taking the king of hearts with the ace at trick one, he plays low from dummy and discards a diamond from his hand! Now the contract cannot be stopped, even though West holds two apparently certain spade tricks.

Let's say West continues a heart at trick two. South discards another diamond on dummy's ace, cashes the queen of trumps and ace of diamonds, then ruffs the ten of diamonds high. This is followed by a trump to dummy's nine and a ruff of the jack of diamonds.

Dummy now has the 8-7-2 of spades and J-10-4 of trumps; South has the A-J-10-9 of spades and A-8 of trumps. Declarer leads the eight of trumps to dummy's ten, then plays a spade to his nine. West wins with the queen but must yield the contract, whatever he returns.

ROASTED PORK LOIN AND PEARS
Serves 6 to 8

A simple fall roast, this pork loin cooks on a bed of pears and shallots fragrant with fresh thyme.

- 1 boneless pork loin roast , tied
- 2 tablespoons extra-virgin olive oil , divided
- 3 tablespoons roughly chopped fresh thyme or lemon thyme , divided
- 1 teaspoon fine sea salt
- 1/4 teaspoon ground black pepper
- 5 assorted ripe but firm pears , halved and cored
- 1/2 pound shallots (about 8) , roughly chopped

Preheat the oven to 400°F. Rub pork all over with 1 1/2 teaspoons of the oil, and season with 1 1/2 tablespoons of the thyme, and salt and pepper. In a large bowl, toss together pears, shallots, remaining 1 1/2 tablespoons oil and 1 1/2 tablespoons thyme. Arrange pear mixture in a 9x13-inch baking dish or roasting pan. Place pork, fat-side up, on top. Roast until an instant-read thermometer inserted into the thickest part of the meat reads 145°F, about 1 hour.

Let pork rest for 15 minutes, then carefully remove the twine and thinly slice pork. Arrange slices over pears and shallots on a large platter and drizzle with pan juices.

BUTTERNUT SQUASH AND MACARONI CASSEROLE
Serves 8 to 10

Coconut milk is the unexpected, rich and delicious ingredient in this creamy vegan casserole dish. Substitute pecans for the walnuts, if desired.

- 2 tablespoons extra-olive oil , plus more for the baking dish
- 1 large yellow onion , thinly sliced
- 1 butternut squash (about 2 pounds) , peeled, seeded and cut into 1-inch pieces
- 1 can coconut milk
- 1/2 teaspoon fine sea salt
- 1 tablespoon finely chopped fresh sage
- 3/4 pound whole wheat elbow macaroni
- 1/2 cup chopped toasted walnuts
- 1/2 cup whole wheat bread crumbs
- 1/2 teaspoon ground black pepper

Preheat the oven to 350°F. Lightly oil a 9x13-inch baking dish; set aside. Heat oil in a medium pot over medium heat. Add onion and cook, stirring often, until softened, 5 to 7 minutes. Add squash, coconut milk, salt and pepper and bring to a boil. Cover, reduce heat to medium low and simmer until squash is tender, about 20 minutes. Stir in sage and simmer 1 minute more. (This part can be made ahead, up to 1 day in advance.) Meanwhile, bring a large pot of salted water to a boil. Add macaroni and cook until tender but still firm, about 8 minutes. Rinse in cold water, drain well and transfer to a large bowl. Transfer squash mixture to the bowl with macaroni. Add walnuts and toss to combine. Transfer to the prepared dish and top with bread crumbs. Bake until just golden brown and hot throughout, about 30 minutes.

YOUR PROPERTY TAXES JUST WENT UP. OR HADN'T YOU HEARD?

When local governments want to increase tax revenues, they are required to publish notices in the newspaper so that you will know. But that right to know could disappear.

Local governmental entities across the state want to hide their public notices on little seen, rarely visited government websites. What you don't know will affect you personally!

City of Temple to Host Household Hazardous Waste Collection Event

The City of Temple, in cooperation with Waste Management - Temple Landfill, Temple Iron & Metal and the Central Texas Council of Governments, will be hosting a Household Hazardous Waste Collection event on Saturday, 9 a.m. - 2 p.m. Oct. 3. The collection will be held at the Temple Service Center located at 3210 East Avenue H and residents living in Bell, Coryell, Hamilton, Lampasas, Milam, Mills and San Saba counties are invited to participate.

You may bring any of the following: tile, toilet, oven and drain cleaners;

polishes, ammonia, paints, stains, varnishes, paint thinners and/or removers, aerosol spray cans, pesticides, herbicides, insect repellants, fungicides, pool chemicals, automotive batteries, used oil & oil filters, old gasoline, transmission fluid, brake fluid, antifreeze and up to 8 passenger tires. A \$1.00 surcharge will be placed on each tire over the limit. No tires on rims and no tires larger than 21.5-inch rim dimension. Goodwill will be accepting electronic items with the exception of refrigerators and CRT televisions. Businesses are encouraged to take part in the elec-

tronic recycling as well as home owners.

This upcoming Household Hazardous Waste collection is an opportunity for residents to dispose of these household hazards properly. The event offers a better alternative to throwing the materials in your household garbage to be disposed of in the landfill or igniting in the garbage truck causing a fire.

PROHIBITED items for this event include: infectious and medical wastes, biological and radioactive materials, compressed gas cylinders, ammunition, fire extinguishers, smoke detectors and explosives. No

commercial waste will be accepted as this event is for home hazards only, with the exception of electronics.

Funding for this event is being made possible by Waste Management-Temple Landfill and the Central Texas Council of Governments. The City of Temple appreciates the opportunity of being selected to host this type of event for our citizens and surrounding communities.

For more information or questions, you may contact the City of Temple Solid Waste Services at (254) 298-5725 or (254) 931-2487.
